

## **Fiddletown Heritage Day**

Now that Phase 1 of the ROCS project is complete, the very hard working (and very tired) team at FPS has decided to take a little time to rest up and plan what's next for our wonderful chinese buildings. While we make our plans and determine what will be required for the next step we have decided to take a brief hiatus with regard to Fiddletown Heritage Day.

So, no Heritage Day for 2010. Keep watching the web site though for updates on the ROCS project and the return of Heritage Day in the future.

Thanks to all who have helped to make the past 5 years of Fiddletown Heritage Day events great, fun and growing fundraisers for the ROCS project.
